Our school supports the development of the **whole child**, with a low student-teacher ratio, a curriculum that emphasizes **academic preparedness, participation and play**, and a deep foundation in **core values**. Through hands on learning and discovery, children develop a range of life skills—literacy and math, social and emotional and fine and gross motor— and they take part in **enrichment offerings** such as art, music, cooking, yoga, gym with a licensed occupational therapist, and much more. Our school features bright **new classrooms** and a beautiful **new playground**.
